What is a Playmaker Forum?

- A compact 1 day forum (GTW)
- where geoscientists share with geoscientists
- technical AND professional paths to business success to find and produce energy, featuring:
  - foundational talks (skill sets, workflows, resources),
  - headliner luncheon (broad vision),
  - analog discoveries in proven and emerging plays (of high interest to the forum venue),
  - networking breaks (participants, speakers, and young professionals can exchange cards and ideas)
  - an ice-breaker reception
Why use the phrase Playmaker?

• In soccer, a playmaker is a player who controls the flow of the team's offensive play, and is often involved in passing moves which lead to goals, thanks to their vision, technique, ball control, creativity, and passing ability. [Wikipedia]

• Intuition and creativity are key elements of a playmaker's game

• Note: Playmaker is action oriented.
• Not a Play”studier”
